

Body Weight Blast Training

Presented by Helen Vanderburg

Introduction:

Bodyweight training has gained incredible popularity in the virtual space, for home workouts and in studio. These workouts can be done anywhere without an investment in equipment and space. Designing an effective and results driven bodyweight workout takes unique exercise design, applied principles of training and creativity. In this workshop we will explore a wide variety of techniques including Tri-sets, Ladders, Threshold training, Pyramids, AMRAP, EMOM and much more!
