

Growth Mindset Quiz

Place a check in the column that identifies the extent to which you agree or disagree with the statement.

		Strongly Agree	Agree	Disagree	Strongly Disagree
1.	Your intelligence is something very basic about you that you can't change very much.				
2.	No matter how much intelligence you have, you can always change it quite a bit.				
3.	You can always substantially change how intelligent you are.				
4.	You are a certain kind of person, and there is not much that can be done to really change that.				
5.	You can always change basic things about the kind of person you are.				
6.	Music talent can be learned by anyone.				
7.	Only a few people will be truly good at sports--you have to be "born with it."				
8.	Math is much easier to learn if you are male or maybe/come from a culture who values math.				
9.	The harder you work at something, the better you will be at it.				
10.	No matter what kind of person you are, you can always change substantially.				
11.	Trying new things is stressful for me and I avoid it.				
12.	Some people are good and kind, and some are not--it's not often that people change.				
13.	I appreciate when parents, coaches, teachers give me feedback about my performance.				
14.	I often get angry when I get feedback about my performance.				
15.	All human beings without a brain injury or birth defect are capable of the same amount of learning.				
16.	You can learn new things, but you can't really change how intelligent you are.				
17.	You can do things differently, but the important parts of who you are can't really be changed.				
18.	Human beings are basically good, but sometimes make terrible decisions.				
19.	An important reason why I do my school work is that I like to learn new things.				
20.	Truly smart people do not need to try hard.				

Circle the number in the box that matches the answer.

10

Objective

- Get more people moving
- Provide coaches and instructors with a simple formula
- Create programming for various spaces
- Make it easy & affordable for fit pros to get started
- Bridge the gap between science and practice with an innovative approach & one inclusive experience

11

WHAT IS
E5 COLLECTIVE?

- Fitness format formula
- Time based – Minimal equipment
- 45 or 50-minute versions
- Online instructor training course
- Instructor membership
- Subscription model

12

BASED ON SCIENCE

The foundation of the E5 COLLECTIVE® program is based on the science and research that exists around 4 main ideas.

13

Variability

- **Movement:** directions, planes of motion, odd positions, range of motion, ground to standing patterns
 - **Wolff's Law:** Bones adapt along lines of imposed stress
 - **Davis's Law:** Soft tissue forms and heals to reflect mechanical stress
- **Load:** with and without external load
 - 4Q Neuromechanical model by Institute of Motion
- **Intensity:** low, moderate and high; recovery and breath work – increase Heart Rate Variability
- **Fascia:** In order to train our fascial system well, several strategies are recommended, including incorporating movement variety, applying load to the functional fascial chains across several joints, using stretching and lengthening movements and fostering sensory stimulation and body awareness (Schleip, 2017).

14

Variability

Sit to Stand Exercise

How many different ways can you get down on the floor and back up again to standing in one minute?

TRY IT!

15

Cognitive Health

The **four primary cognitive abilities** are memory, attention, executive function and processing speed; E5 integrates tasks that target these

Dual Tasking: "Physical activity programs that also contain brain training can produce greater cognitive benefits in older adults; especially when the physical activity and brain training are done simultaneously, and regardless of program characteristics like length, session duration, and session frequency" (Gheysen et al. 2018).

Coordinative Exercise: Neuromotor & open-skill (more unpredictable) exercise can incorporate coordinative movements and (depending on the novelty) can possess certain cognitive demands.

16

Stand and Squat Hover Drill

Green = Do it

Red = Do not do it

Start in seated position

39

Play

- **Verb:** to engage in (an activity) as a game
- **Noun:** the conduct, course, or action of a game; recreational activity

[Source: <https://www.merriam-webster.com/dictionary/play>]

40

"Exercise programming that is more enjoyable and uses a diverse set of implements to recreate "playtime"...may shift the mindset of the patient away from dreading exercise to looking forward to it because it is fun. Because lifestyle modification is the only true way to reclaim health, adopting this view has important implications for recovery and long-term wellness." (Jett et al. 2013).

"If your game allows for coworkers, friends, families, or acquaintances to share an experience or connect, then suddenly your game is more than a game: it is an emotional common ground and pathway. That makes it addictive, attractive, and worth sharing." Socialization can create motivation and promote accountability. (Sintek et al. 2013).

41

42

Mindset

Our willingness to **do hard things** and **get uncomfortable** fosters mental strength. Our willingness to see the opportunity amidst the difficulty can affect our approach, thought process, feelings and outcomes.

"A **fixed mindset** about ability leads to pessimistic explanations of adversity, and that, in turn, leads to both giving up on challenges and avoiding them in the first place. In contrast, a **growth mindset** leads to optimistic ways of explaining adversity, and that, in turn, leads to perseverance and seeking out new challenges that will ultimately make you even stronger" (Duckworth, 2016).

43

FIXED MINDSET CHARACTERISTICS GROWTH MINDSET

SET - YOU HAVE WHAT YOU HAVE	SKILLS+INTELLIGENCE	CAN BE GROWN AND DEVELOPED
HOW THEY LOOK PERFORMANCE FOCUS	MAIN CONCERN	LEARNING / GETTING BETTER PROCESS FOCUS
SOMETHING YOU DO WHEN YOU'RE NOT GOOD	EFFORT	AN IMPORTANT PART OF LEARNING
GIVE UP / CHECK OUT	CHALLENGES	PERSEVERE / WORK THROUGH IT - SHOW MORE GRIT
TAKE IT PERSONAL GET DEFENSIVE	FEEDBACK	LIKE IT / USE IT TO LEARN
HATE THEM / TRY TO AVOID MAKING THEM	MISTAKES	TREAT THEM AS A LEARNING OPPORTUNITY
